

# Tricks of the TRADE

FASHION and BEAUTY insiders reveal their grooming *maxims* and *methods*.

WORDS: SIGOURNEY CANTELO

## THE FASHION PACK

**KIT WILLOW**  
FASHION DESIGNER

"My philosophy is: your face wears who you are. Beauty is from within; the more you smile, the kinder and the better that you are. It comes through in age."

**YEOJIN BAE**  
FASHION DESIGNER

"I use coconut oil for everything: to moisturise my skin, as a hair treatment, and I even rinse my mouth with it to clean my teeth and keep them looking white."

**KYM ELLERY**  
FASHION DESIGNER

"When you apply eye cream, pat it under your eyes with your ring fingers, as they are weakest and will remind you to be gentle. Oh, and always wear sunscreen."

"I love natural beauty and use as few additives as possible. What goes onto your skin, your body absorbs. I make my own body scrub with sea salt and lavender or rose oil."

**ABBEY LEE MODEL**

"Eat healthily, drink lots of water and get copious amounts of sleep. Splash some iced water on your face in the morning if you are puffy."

**CATHERINE MCNEIL MODEL**

"You can be healthy, drink water and avoid the sun, but age happens to everybody. I've taken the road that I don't want a facelift. I just want to age gracefully and do the best I can."

**LINDA RODIN STYLIST**

**BARBARA PALVIN**  
MODEL AND L'ORÉAL  
AMBASSADOR

"I never pluck my eyebrows; it's better not to touch them. But when I go out on the red carpet, I put L'Oréal Elnett Satin hairspray onto a clean mascara brush and brush them up. Elnett is not sticky and it just stays there."

**MIRANDA KERR MODEL**  
AND FOUNDER OF KORA  
ORGANICS "I enjoy using body  
brushing. It stimulates blood flow,  
exfoliates skin and is energising.  
I like to do that every morning."

## THE BEAUTY GURUS

**PETER PHILIPS**  
CHANEL MAKE-UP  
ARTIST

"Always curl your eyelashes. Your curl will last longer if you use waterproof mascara."

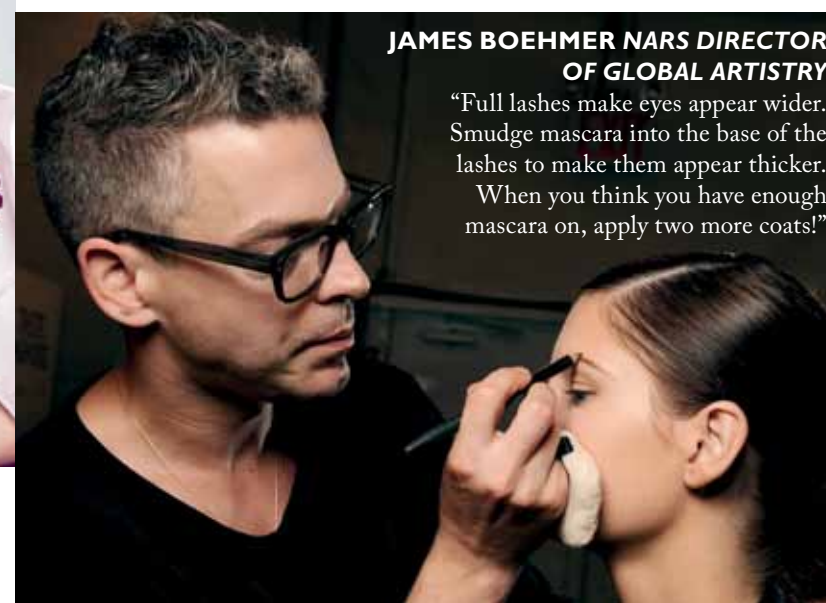

"For women in their 40s, a dab of moisturising concealer on your eyes' outer corners can make you look better. I do this every day!"

**GUCCI WESTMAN REVLON ARTISTIC DIRECTOR**

"Hair is part of a woman's inner beauty, iconic to her femininity. Healthy hair is the base for unique coiffures. Good nutrition helps. Also, add white vinegar to cold water in the final rinse to make the hair really shine."

**JOHN NOLLET**  
HAIRSTYLIST

**JAMES BOEHMER NARS DIRECTOR**  
OF GLOBAL ARTISTRY

"Full lashes make eyes appear wider. Smudge mascara into the base of the lashes to make them appear thicker. When you think you have enough mascara on, apply two more coats!"

**ILHAM MESTOUR**  
DUTCH HAIRSTYLIST AND  
KEUNE ARTISTIC DIRECTOR

"With mousse, the secret is how you use it. Usually you put a golf-ball-sized squirt in wet hair, but try putting it in dry hair (to avoid dilution by the water) and use two tennis balls' worth. Then dry it in for amazing texture and volume."

**RENYA XYDIS**  
AUSTRALIAN HAIRSTYLIST

"Conditioners work better when they are heat-activated, so after you apply a conditioning treatment, put on a shower cap and make use of the steam in the shower for five to 10 minutes."

**TOM PECHEUX ESTÉE LAUDER**  
CREATIVE MAKE-UP DIRECTOR

"When applying foundation, use your fingers if your skin is amazing and you only want a veil of coverage. If your skin is uneven or blemished, use a brush. If you really need to hide flaws, a sponge provides the best coverage."

**LIZ KELSH MAX FACTOR**  
AUSTRALIAN NATIONAL  
MAKE-UP ARTIST

"The best ever beauty advice I was given was from my grandmother: wash your face twice before bed. The first cleanse removes make-up and dirt, while the second gives a deeper cleanse. And take time massaging moisturiser into your face – it preps the skin for foundation."

**OLIVIA CHANTECAILLE**  
CHANTECAILLE  
CREATIVE DIRECTOR

"I rarely have time for facials, so I try to sleep with a cream-based mask whenever I can. I wake up looking younger and refreshed. I like to keep my Rosewater facial spray in the fridge for cooling, pore-tightening results."
